

# Townsend Primary School

## **A warm welcome to the Townsend Primary School Website!**

As you tour our website, you will see that Townsend is an inclusive and friendly school. We are a kind and caring school which enables our children to flourish in an academic environment that caters for their social, moral, cultural and spiritual needs.

The School Governors and I believe Townsend to be a place where children can be enriched, inspired and achieve to the best of their ability and beyond. We have high expectations for our children, as they represent the future of our community. Our staff promote a love of learning and a desire for pupils to succeed through purposeful teaching. No assumptions are made about a student's previous knowledge, and understanding is established in a step-by-step manner. The teaching style aims to be positive, encouraging and sympathetic to the challenges which students encounter.

Our parents are supportive and enjoy many events that are organised throughout the school year. These include, English and Maths workshops as well as weekly coffee mornings.

Our community is diverse and we actively promote an ethos of acceptance of differences. We celebrate our many different faiths, languages and backgrounds.

Townsend Primary School aims for children to establish strong academic foundations, achieve outstanding results and secure a mature and independent attitude. This is vital for taking advantage of life's opportunities.

I can be found every morning, in the playground, welcoming the parents and pupils into school, so please do introduce yourself!

**Come in and see our school in action and feel the positive atmosphere. Contact the school today to arrange a time to come and visit.**

Mrs Anne Stonell
