

Chick Hatching Experience for Early Years Monday 7th June to Friday 18th June

At Townsend we are always looking at different ways to enrich our children's learning.

This term, we will be looking after eggs until they hatch.

Children in Early Years will learn about the lifecycle of chicks and experience the joyfulness of chicks hatching in front of their eyes.

The cost for this project is £245, and we would be grateful if parents can make a small voluntary contribution towards this amount. Any contributions by Friday 11th June are most welcome. Many Thanks
